

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Reza Toulabi
DOCKET NO.: 03-24017.001-I-1
PARCEL NO.: 14-29-318-025-0000

The parties of record before the Property Tax Appeal Board are Reza Toulabi, the appellant; and the Cook County Board of Review.

The subject property is a vacant parcel with 3,000 square feet of land area. The property is located in Chicago, Lake View Township, Cook County.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument the appellant submitted assessment information and descriptions on four comparables. The comparables were vacant parcels that ranged in size from 2,573 to 15,790 square feet of land area. The properties had the same classification and neighborhood codes as the subject property. The appellant stated the comparables were located within a square block of the subject property. These properties had land assessments that ranged from \$11,035 to \$34,738 or from \$2.20 to \$9.24 per square foot of land area. The appellant indicated the comparables had an average assessed value of \$4.73 per square foot of land area while the subject parcel has a land assessment of \$66,000 or \$22.00 per square foot. Based on this evidence the appellant requested the subject's land assessment be reduced to \$14,197.

The board of review did not submit its "Board of Review Notes on Appeal" or any evidence in support of its assessed valuation of the subject property.

(Continued on Next Page)

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	16,700
IMPR.:	\$	0
TOTAL:	\$	16,700

Subject only to the State multiplier as applicable.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Property Tax Appeal Board further finds the evidence in the record supports a reduction in the subject's assessment.

The appellant contends assessment inequity as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessments by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data the Board finds a reduction is warranted.

In support of the lack of uniformity argument the appellant submitted descriptions and assessment information on four equity comparables. The comparables were vacant parcels located within a square block of the subject. These comparables had the same classification and neighborhood codes as the subject. The comparables ranged in size from 2,573 to 15,790 square feet of land area and had land assessments that ranged from \$11,035 to \$34,738 or from \$2.20 to \$9.24 per square foot of land area. The subject property had a land assessment of \$66,000 or \$22.00 per square foot of land area, significantly above the range established by the appellant's comparables. The board of review did not submit any evidence in support of its assessment of the subject property or to refute the appellant's argument as required by Section 1910.40(a) of the rules of the Property Tax Appeal Board. The Board has examined the information submitted by the appellant and finds that it supports a reduction in the assessed valuation of the subject property.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
